CATALANO HORIZON

**sottile e raffinato
so flat, so fine**

IT Connotato da una accentuata orizzontalità, Catalano Horizon combina 3 nuovi lavabi ovali - nelle dimensioni di 70x35, 60x35 e 50x35 cm - ad altrettanti piani ceramici da 125, 100 e 75 cm. I lavabi abbinati ai piani possono prevedere un'installazione multipla, nelle posizioni centrale, destra e sinistra. Le nuance disponibili - sia per i piani che per i lavabi - e la possibilità di abbinamento anche a mobili e strutture dedicate, rendono il sistema dall'ampia offerta adatto ad ogni tipo di bagno ed esigenza. Un nuovo modo di concepire lo spazio bagno.

EN Characterized by extremely flat surfaces, Catalano Horizon is made up of 3 new oval washbasins - 70x35, 60x35 and 50x35 cm sized - to be installed on ceramic tops 125, 100 and 75 cm sized. Washbasins can be installed in the middle, on the right or on the left of the ceramic top. The range of colours (available both for tops and washbasins), furniture, units and structures, make this system suitable for every kind of bathroom and every customers need. A new way of conceiving the bathroom space.

I tre lavabi Horizon - così come gli altri sette selezionati tra Zero e Green Lux - possono essere installati sui piani ceramici in tre differenti posizioni: al centro, a destra o a sinistra. Libertà di installazione che darà la possibilità di avere ampi piani funzionali da gestire in base ai propri gusti ed esigenze.

The three Horizon washbasins - as well as other seven washbasins, belonging to Zero and Green Lux range - can be installed on the ceramic tops in three different positions: in the middle, on the right or on the left. These installation alternatives give the possibility to have large functional ledges to use according to every need.

Il centro ricerche Catalano, in risposta alle esigenze di mercato orientate sempre più alla personalizzazione e alla necessità di differenziazione, ha sviluppato internamente nuovi smalti colorati capaci di garantire nel tempo un'assoluta resistenza alle abrasioni, agli acidi e agli sbalzi termici.

Catalano Research Centre, in order to meet the market need for customization and differentiation, has developed in-house new colored glazes able to guarantee a high resistance over time to abrasions, acids and thermal shock.

La sperimentazione di Catalano sul tema delle finiture di pregio ha reso possibile la messa a punto di un esclusivo processo produttivo che consente l'applicazione sui sanitari di una "pelle" di oro 18k e di argento puro. Ne derivano finiture eccellenti, frutto di uno specifico processo di vetrificazione che consente di ottenere un grado di resistenza alle abrasioni "unscratchable", ai detergenti e agli sbalzi termici nettamente superiore rispetto agli smalti tradizionali.

Catalano experimentation on precious finishes has lead to the development of an exclusive production process for applying a "skin" of 18k gold and pure silver on sanitaryware items. These precious finishes are the result of a special vitrification process which allows to get a much higher resistance to abrasions, detergents and to thermal shock than standard glazes.
