# ABOUT ALMAR

Made in Italy.

Stile italiano. Etica. Innovazione.

I **sistemi doccia ALMAR** rielaborano il concetto di design all'interno dello spazio bagno, attraverso l'innata eleganza del made in Italy e una nuova sensibilità etica nell'abitare. Una **filosofia legata alla tradizione**, sostenuta da una **visione innovativa e funzionale**, porta ALMAR a realizzare ogni singolo componente di prodotto all'interno dei suoi stabilimenti.

**Moderne tecniche di ingegneristica**, unite a una **ricercata attenzione al dettaglio**, garantiscono ai prodotti ALMAR finiture preziose e i più alti standard di qualità e precisione.

*Italian Style. Ethics. Innovation.*

*ALMAR's shower systems refashion the concept of design in the bathroom, through the inborn elegance of made in Italy products and a new ethical sensitivity in living.*

*Thanks to a **philosophy bound to tradition**, supported by an **innovative and functional vision**, ALMAR realizes all product components in its factory.*

***Modern engineering technics**, together with a **studied attention to details**, ensure ALMAR's products precious finishes and the highest quality and precision standards.*

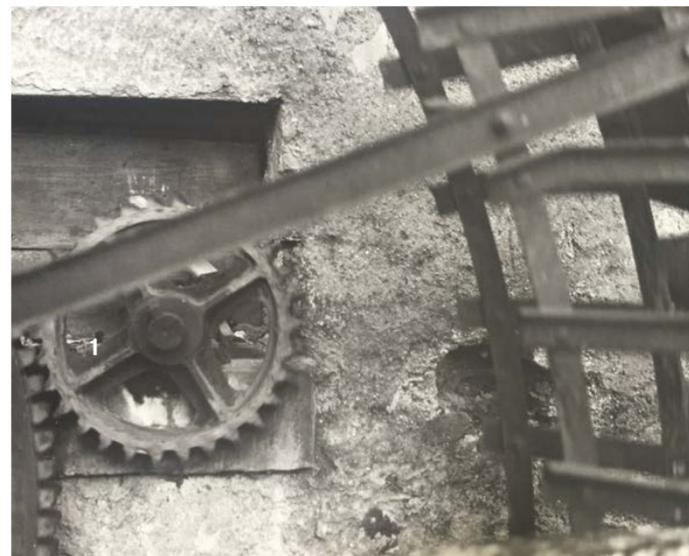

# LA NOSTRA STORIA

## OUR HISTORY

# 1900

### DAL 1900 | UN'AUTENTICA PASSIONE PER L'ACQUA

La storia di un'azienda è spesso intrecciata con la **storia del luogo in cui tutto è nato**. Per ALMAR, quel luogo è un **mulino ad acqua**.

Era il 1900 quando il capostipite della **famiglia Civelli** comprò un mulino ad acqua per la macina del grano. Un antico mestiere di famiglia, profondamente legato a una **passione per l'acqua** che verrà tramandata di generazione in generazione.

La stessa passione con cui, oltre un secolo dopo, Marco e Aldo Civelli accompagneranno ALMAR sul mercato internazionale, emozionando i propri clienti attraverso una **nuova esperienza con l'acqua** che rivoluzionerà il modo di abitare lo spazio bagno.

### SINCE 1900 | A REAL PASSION FOR WATER

The history of a company is often interlaced with the one of the **place where everything began**. As far as ALMAR is concerned, this place is a **water mill**.

In 1900, the progenitor of **Civelli family** bought a water mill to grind wheat. An old family craft, deeply bound with a **passion for water**, that will be handed down to the following generations.

The same passion with which, after more than one century, Marco and Aldo Civelli will accompany ALMAR on the international market, providing their customers with a **new experience with water**, that will revolutionize the way of living the bathroom.

# LA NOSTRA STORIA

## OUR HISTORY

Almar

1969

**Gianluigi Civelli** fonda la Civelli Gianluigi & C. snc, un'azienda artigiana specializzata nella costruzione di stampi, che inizierà presto ad operare nel mercato delle rubinetterie.

1996

### NASCE ALMAR.

I figli Marco e Aldo iniziano la loro attività imprenditoriale: la nuova azienda dedica la sua attività al **settore bagno**, attraverso la produzione di accessori per rubinetterie per conto terzi.

1999

Nascono i primi prodotti e **sistemi doccia ALMAR**: ogni pezzo è ideato, progettato e prodotto internamente.

2006

Inizia la partecipazione di ALMAR alle più importanti **fiere internazionali** di settore.

2009

ALMAR ottiene la **certificazione ISO 9001**.

2010

Nasce il nuovo sistema **EcoAir**, progettato per un utilizzo ecologico dell'acqua.

2012

L'inedito concept di **Sistemi Doccia by ALMAR** segna la nuova direzione dell'azienda: regalare ai propri clienti esperienze emozionali attraverso le proprie creazioni.

2015

ALMAR inaugura la sua **nuova sede** a Cocquio Trevisago.

2017

L'azienda ottiene la **certificazione OHSAS 18001** e il passaggio alla nuova **norma ISO 9001**.

2018

ALMAR è tra le prime aziende in Italia a introdurre all'interno dei suoi processi produttivi il **rivestimento PVD** (Physical Vapor Deposition).

2019

La produzione si amplia con un nuovo **reparto di torneria e fresatura** in acciaio e ottone.

2020

ALMAR inaugura il suo **nuovo showroom**. Uno spazio accogliente e ricercato in cui visionare le collezioni nel luogo stesso in cui hanno origine.

2022

### 2022, ALMAR CRESCE.

La forte espansione dell'azienda porta all'**ampliamento del reparto PVD** e all'**introduzione di nuovi macchinari e tecnologie**, capaci di far fronte alle più esigenti richieste di produzione.

1969

**Gianluigi Civelli** establishes Civelli Gianluigi & C. snc, a craft business specialized in the production of moulds and in the moulding of thermoplastic materials. Soon, the company will start operating in the market of taps and fittings.

1996

**ALMAR is born.** After a period of apprenticeship in other companies of the sector, Gianluigi's sons – Marco and Aldo – start their entrepreneurial activity. The new company devotes itself to the **bathroom sector**, producing taps and fittings on behalf of third parties.

1999

**ALMAR's first products and shower systems** are born: every piece is designed, planned and produced internally.

2006

ALMAR starts attending the most important international exhibitions of the sector.

2009

The company obtains the **ISO 9001 certification**.

2010

The new **EcoAir system**, designed for an ecological employment of water, is born.

2012

The new concept of **Shower Systems by ALMAR** marks the new direction of the company: providing their customers with emotional experiences through their creations.

2015

ALMAR opens the **new seat** in Cocquio Trevisago.

2017

The company obtains the **OHSAS 18001 certification** and the passage to the new **ISO 9001 standard**.

2018

ALMAR is one of the first companies in Italy that introduces within its production processes the **PVD** (Physical Vapor Deposition) **coating**.

2019

The production enlarges with a new **steel and brass turnery and milling department**.

2020

ALMAR opens its **new showroom**. A friendly and refined space where the collections can be seen in the place where they are created.

2022

### ALMAR IS GROWING

The big expansion of the company leads to the **widening of the PVD department** and the **introduction of new machines and technologies**, able to meet the most demanding production requests.

# GLI STABILIMENTI ALMAR

## ALMAR'S FACTORY

.1

**50** anni nel settore  
*years in the industry*

**3** stabilimenti produttivi  
*factories*

**120+** persone in staff  
*people in staff*

**10.000** mq di reparti produttivi  
*sq of production*

**50+** paesi export anno 2020  
*export countries year 2020*

.2

.3

Gli stabilimenti ALMAR si estendono su una superficie totale di **10.000 mq** divisa in 2 stabilimenti produttivi:

**1 stabilimento di Gavirate** in cui hanno sede gli uffici commerciali, tecnici ed amministrativi e la produzione per i reparti acciaio, PVD e assemblaggio oltre al **nuovo showroom espositivo**, inaugurato a gennaio 2020.

**2 stabilimento di Cocquio Trevisago** in cui trovano collocazione i reparti di stampaggio materie plastiche e il reparto torneria.

**ALMAR's factory** covers a total surface of 10,000 square meters.

More than the production departments and the technical and administrative offices, the company hosts **a new showroom**, opened in January 2020. A friendly and refined space where ALMAR's collections can be tested in the same place where they have been produced, through an **exclusive water experience**.

- .1 Stabilimento di Gavirate

# POLITICA AMBIENTALE

## ENVIRONMENTAL POLICY

A contraddistinguere ALMAR non è soltanto la **qualità** e la **sostenibilità** dei suoi prodotti, ma anche il modo che sceglie per realizzarli: l'**attenzione all'ambiente** gioca un ruolo fondamentale in tutte le fasi di processo.

Durante ogni ciclo di lavorazione, **gli sfridi vengono riciclati e reinseriti nella fase di produzione**, evitando così gli scarti e riducendo i processi inquinanti.

ALMAR presta la massima attenzione anche al **riciclo** e al **consumo consapevole delle risorse naturali**.

### Gli obiettivi ambientali di ALMAR:

- aumentare l'utilizzo di materiali ecologici ed ecosostenibili;
- ridurre la quantità di energia utilizzata durante ogni singola fase di produzione;
- lavorare attivamente alla riduzione dell'impatto sull'ambiente attraverso una gestione sempre più responsabile di rifiuti ed emissioni.

Consapevole dell'importanza di agire in prima persona per la **salvaguardia dell'ambiente**, ALMAR investe in nuove tecnologie green (PVD) e sceglie sistemi all'avanguardia nelle emissioni (ciclo chiuso lavaggio IFP).

Nel 2019 ALMAR installa presso il suo stabilimento di Cocquio Trevisago 430 pannelli fotovoltaici ad alta efficienza.

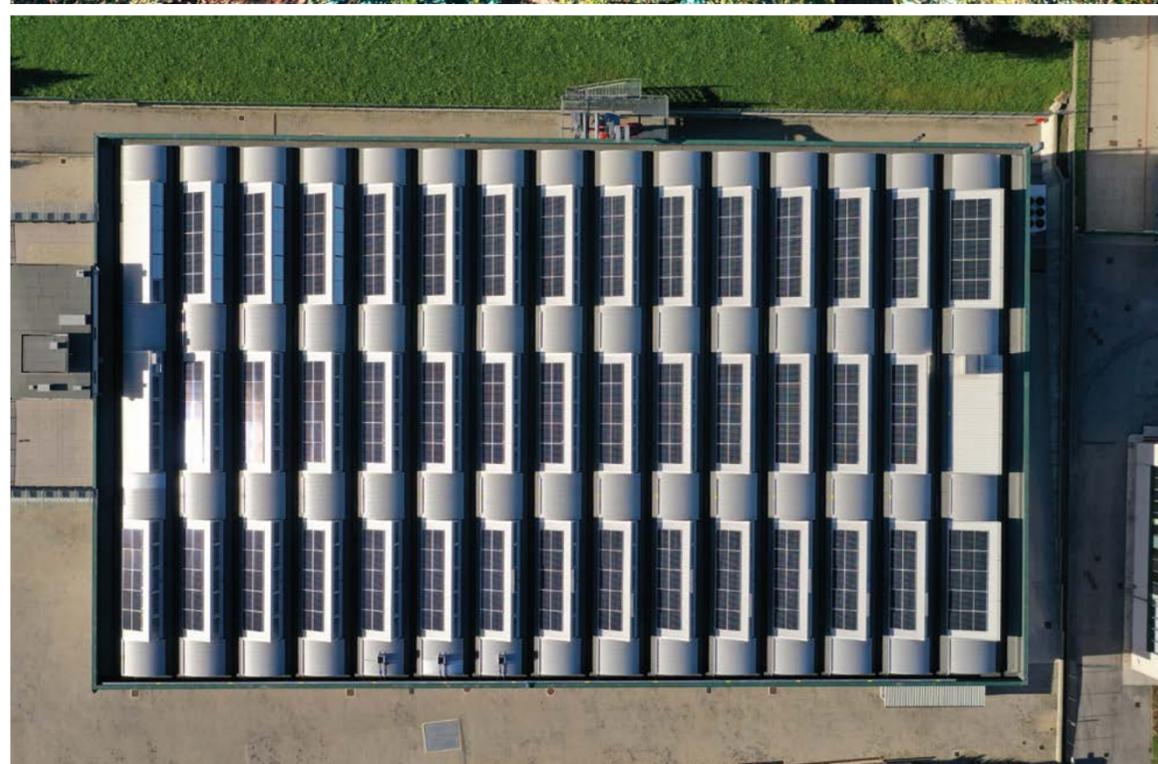

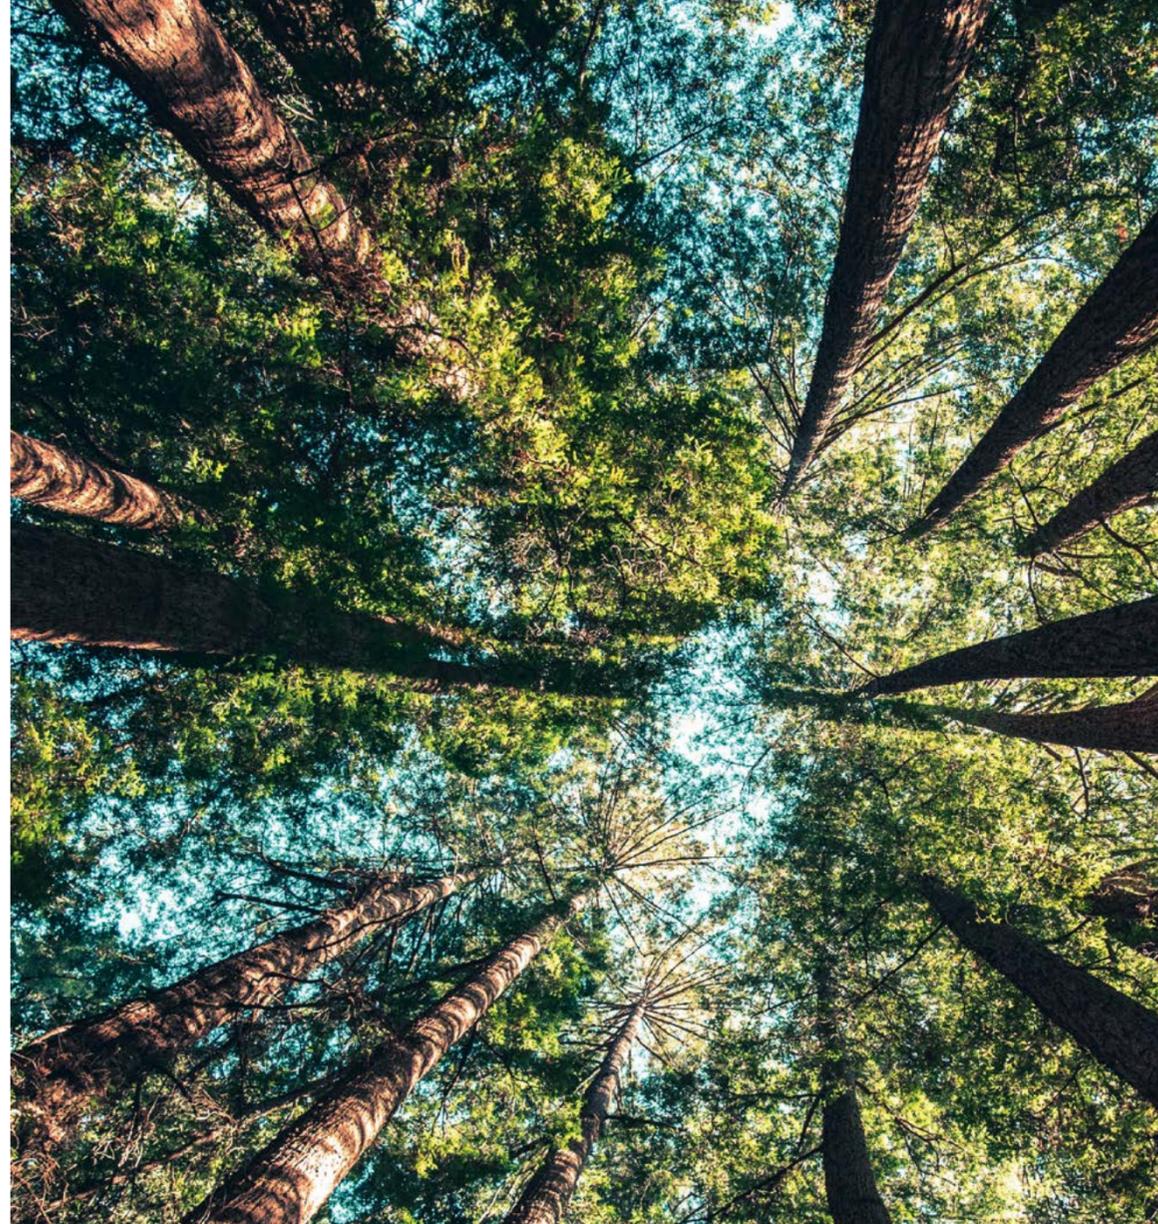

Photo by Casey Horner on Unsplash

ALMAR's distinguishing marks are not only the **quality** and **sustainability** of its products, but also the methods it chooses to realize them: the attention to environment plays an essential role in all stages of the process.

During every processing cycle, the **rebounds are recycled and reintroduced in the production stage**, in order to avoid waste and reducing the polluting processes.

ALMAR pays the maximum attention also to the **recycle** and aware **consumption of natural resources**.

### ALMAR's environmental objectives:

- increasing the employment of ecological and ecologically sustainable materials;
- reducing the quantity of energy employed during each production stage;
- working actively in order to reduce the impact on the environment through a more and more responsible management of waste and emissions.

Aware of the importance of acting personally for the **environment protection**, ALMAR invests in new green technologies (PVD) and chooses state-of-the-art systems in the emissions (IFP washing closed circuit).

In 2019, ALMAR installs 430 highly efficient photovoltaic panels in the factory of Cocquio Trevisago.

# ATTENZIONE AL PIANETA

## la nostra sostenibilità

Abbiamo a cuore il nostro pianeta: il nostro impegno cresce di anno in anno, e si concretizza con il raggiungimento di obiettivi ambiziosi.

*We care about our planet: our commitment is growing year by year and becomes reality with the achievement of ambitious targets.*

### 1 Water Saving

### 2 trattamento PVD

### 4 energia da fonti rinnovabili

### 3 stampaggio con canale caldo

#### Water Saving

ALMAR è sempre alla ricerca di soluzioni orientate al risparmio idrico. **EcoAir Sistem** è un dispositivo brevettato, in grado di consentire un **risparmio del consumo dell'acqua fino al 50%**, pur mantenendo inalterato il comfort sensazionale del getto. Anche la nuova **Velvet Collection** è pensata **per diminuire il fabbisogno d'acqua per ogni doccia**, grazie a un getto uniforme e delicato, capace di coniugare ecologia e funzionalità.

*ALMAR is always in search of water saving oriented solutions. **EcoAir Sistem** is a patented device that allows **up to 50% water saving**, while keeping the jet sensational comfort unchanged. Even the new **Velvet Collection** is designed **to reduce the water requirements of every shower**, thanks to a steady and gentle jet, able to join ecology with functionality.*

#### trattamento PVD | PVD coating

Il PVD (Physical Vapour Deposition) è un'ottima alternativa ai processi di rivestimento tradizionali: l'intero processo è **sicuro ed ecosostenibile**, non produce scorie di lavorazione e non utilizza materiali tossici.

*the PVD coating (Physical Vapour Deposition) is a great alternative to the traditional coating methods: The whole PVD process is **safe and ecologically sustainable**: it does not produce processing waste and does not use toxic materials.*

#### energia da fonti rinnovabili | renewable power plant

Nel 2019 ALMAR installa presso lo stabilimento di Cocquio Trevisago 430 pannelli fotovoltaici ad alta efficienza.

*In 2019, ALMAR installs 430 highly efficient photovoltaic panels in the factory of Cocquio Trevisago.*

#### stampaggio plastico con canale caldo | thermoplastic moulding

Lo stampaggio dei materiali termoplastici con "sistema a canale caldo" ha migliorato sensibilmente il livello di sostenibilità delle nostre lavorazioni: grazie all'eliminazione dei canali di colata, **gli scarti sono ridotti e i materiali di sfido vengono reinseriti nel ciclo di lavorazione**.

ALMAR si impegna ogni giorno nei confronti di una produzione più sostenibile, con l'obiettivo di ridurre ulteriormente la produzione di componenti in termoplastico secondo metodo tradizionale (utilizzata per tutte quelle lavorazioni in cui il canale caldo non è applicabile).

*The thermoplastic moulding with "hot channel system" considerably improved the sustainability level of our processing operations: thanks to the elimination of the pouring channels, wastes are reduced, **and the swarf materials are reintroduced in the processing cycle**.*

*ALMAR undertakes every day to achieve a more sustainable production, with the purpose of furtherly reducing the production of thermoplastic components according to the traditional method (used for all processing operations where the hot channel cannot be applied).*

#### rinnovo del packaging | packaging renovation

ALMAR investe sugli imballaggi dei propri prodotti, **riducendo i materiali non riciclabili a favore del cartone**. Per tutti gli imballaggi in plastica che non possono essere sostituiti con materiali più sostenibili, utilizziamo solo plastica riciclata.

*ALMAR invest in the packaging of its products, **reducing the non-recyclable materials in favour of cardboard**. For all plastic packaging that cannot be replaced with more sustainable materials, we only use recycled plastic.*

# SOSTENIBILITA': WATER SAVING

## WATER SAVING: ECOAIR SYSTEM

Sistema Eco Air System, per un utilizzo ecologico dell'acqua. Aiuta il pianeta senza rinunciare al comfort di sempre.

Una pioggia dolce, capace di combinare aria ed acqua in un vortice di sensazioni morbide e rigeneranti: aumenta il piacere di fare la doccia e diminuisce il tuo fabbisogno d'acqua con la **collezione di docce e soffioni EcoAir**.

La tecnologia EcoAir miscela l'acqua alle particelle d'aria, regalando alle tue docce un getto ancora più piacevole mentre **riduce il tuo consumo d'acqua**. Impreziosite dell'aria, le gocce d'acqua diventano più leggere, soffici e piene.

**WATER SAVING:** il sistema EcoAir si pone come obiettivo un comportamento ecologico a protezione del clima e dell'ambiente. EcoAir System è un dispositivo brevettato, in grado di consentire un risparmio del consumo dell'acqua fino al 50%, pur mantenendo inalterato il comfort sensazionale del getto. Il sistema è costante su ogni valore (range) di pressione e di portata, per un'applicazione senza limiti di sistema.

*EcoAir System, for a responsible employment of water.  
Help the planet, without giving up the usual comfort.*

*A sweet rain, able to combine air and water in a vortex of soft and regenerating feelings: increase the pleasure of having a shower, reducing your need of water with **EcoAir collection of showers and shower heads**.*

*The EcoAir technology mixes water with air particles, providing your showers with a more enjoyable jet, **reducing at the same time the water consumption**. Enhanced by air, water droplets become lighter, softer and fuller.*

**WATER SAVING:** EcoAir system is aimed at obtaining an ecological behaviour to protect the climate and the environment.

*EcoAir System is a patented device, allowing up to 50% saving of the water consumption, without modifying the sensational comfort of the jet. The system is constant on any range of pressure and capacity, for an application without system limits.*

## EcoAir in numeri:

53 litri

RISPARMIATI con il sistema  
**EcoAir per**  
**1 doccia di 10 minuti**

19.345  
litri

RISPARMIATI  
**in 1 anno**  
con il sistema **EcoAir**

### EcoAir, due docce con il consumo di una.

Ogni giorno, una persona consuma 120 litri d'acqua per fare una doccia di 10 minuti.

Con EcoAir, il fabbisogno d'acqua si riduce quasi della metà, con un risparmio idrico di 53 litri. In un anno, l'acqua risparmiata (circa 19.345 litri) coprirà il fabbisogno di altre 275 docce con sistema EcoAir.

Il sistema EcoAir è applicabile a una selezione di docce e soffioni, nei soffioni in risparmio di acqua è minore in quanto i prodotti sono già dotati di limitatori di portata di 15 l/min.

L'esempio è calcolato sul prodotto E082046 doccia Emotion considerando una doccia di 10 minuti con una portata media di 1,5 bar.

# PRODUZIONE

## PRODUCTION

### UNA PRODUZIONE MADE IN ALMAR

**Non ci limitiamo a progettare sistemi doccia. Creiamo emozioni.**

Nati da una passione per il design che si libera da ogni comune interpretazione, i prodotti ALMAR si trasformano in oggetti capaci di dare valore anche al più piccolo gesto.

I sistemi doccia ALMAR sono **prodotti in Italia da oltre 20 anni**. Moderne tecniche di ingegneristica e l'eleganza del design italiano garantiscono finiture di pregio e i più alti standard di qualità e precisione.

La **filosofia dell'azienda** porta ALMAR a realizzare ogni singolo componente di prodotto all'interno dei propri stabilimenti: l'intero ciclo produttivo, dal design alla produzione e logistica, viene gestito da uno **staff interno attento e qualificato**, orgoglioso di fornire solo il risultato più perfetto.

Durante i processi di lavorazione vengono impiegati soltanto materiali di altissima qualità. In ogni fase di produzione, ALMAR tiene in forte considerazione le sue responsabilità sociali ambientali, ponendosi come obiettivo primario la **sicurezza dei propri dipendenti** e la **salvaguardia dell'ambiente**.

**ALMAR è certificata secondo gli standard di qualità UNI EN ISO 9001:2015 (sistema gestione qualità) e ISO 45001 (sicurezza sul posto di lavoro).**

### A MADE IN ALMAR PRODUCTION

**We don't merely design shower systems. We create emotions.**

*Born from a passion for design, free from any common interpretation, ALMAR's products convert into objects able to enhance even the littlest gesture*

*ALMAR's shower systems have been **produced in Italy for more than 20 years**. Modern engineering techniques and the elegance of Italian design ensure refined finishes and the highest quality and precision standards.*

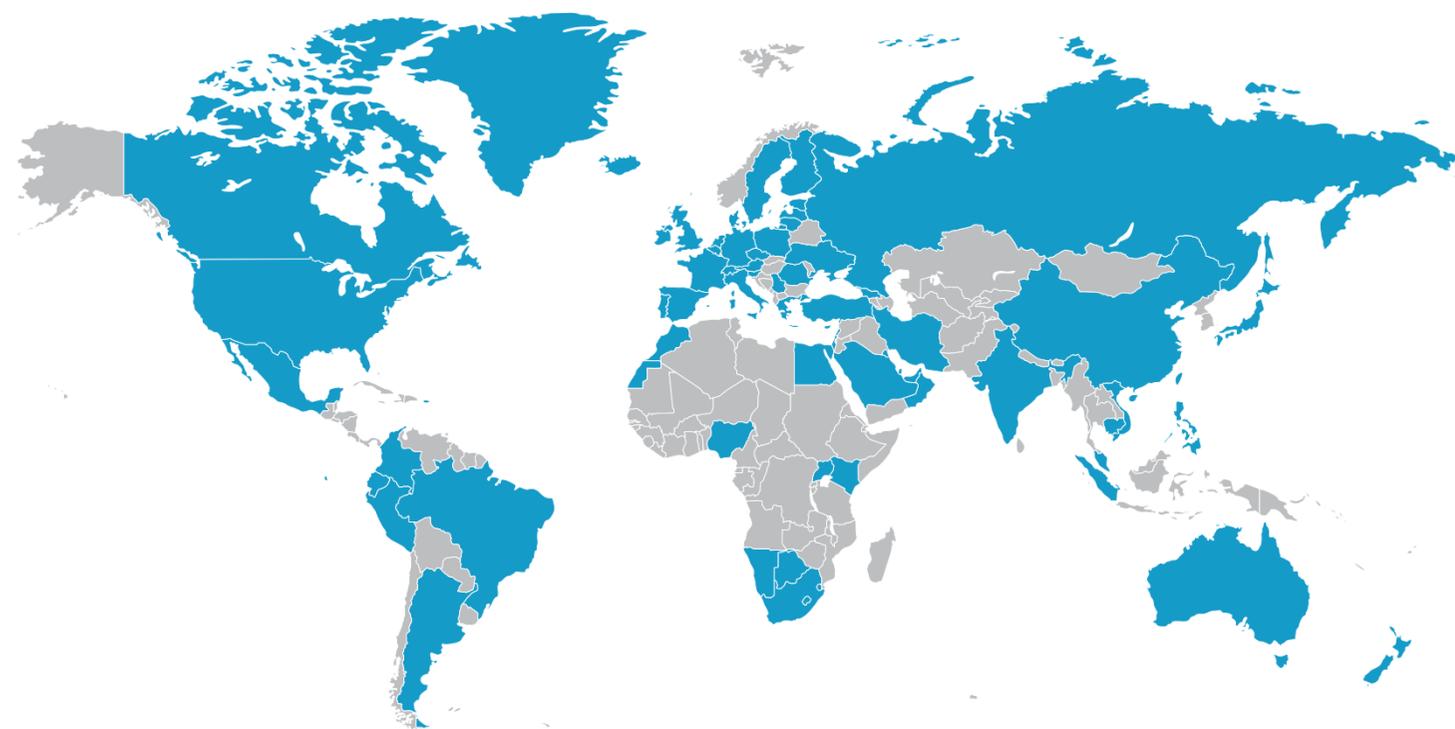

*The **company philosophy** takes ALMAR to realize every product component in its plants: the whole production cycle, from design to production and logistic, is managed by a careful and **skilled inner staff**, proud to provide only a perfect result.*

*During the processing stages, only highest quality materials are used. In every production stage, ALMAR takes into great consideration its social and environmental responsibilities, setting itself as a primary goal its **employees' security** and the **environment protection**.*

**ALMAR is certified according to ISO 9001 (quality management system) and OHSAS 18001 (security on the working place) quality standards.**

# CERTIFICAZIONI DI PRODOTTO

## PRODUCT CERTIFICATIONS

La sicurezza e la conformità dei sistemi doccia ALMAR sono garantite dai più importanti enti di certificazione mondiale. Ogni certificazione testimonia l'esclusività e l'unicità di ogni prodotto, e la volontà di ALMAR di assicurare ai propri clienti i più alti standard qualitativi presenti sul mercato.

### POTABILITA' DELL'ACQUA

I prodotti ALMAR sono dotati di valvole di non ritorno, per **impedire reflussi dannosi e contaminazioni dell'acqua** provenienti dall'esterno.

Ogni componente è prodotto con tecnopolimeri omologati secondo le più severe **normative internazionali** per il contatto con acqua potabile:

**ACS ~ WRAS ~ KIWA ~ CSA ~ NSF 61 ~ W270 ~ KTW**

[VERIFICARE LE LISTE UFFICIALI DI OGNI ENTE]

### RIDUZIONE DEI CONSUMI

ALMAR si pone come obiettivo un comportamento ecologico a protezione del clima e dell'ambiente. Mediante la produzione di articoli in grado di funzionare con un ridotto utilizzo di acqua e un invariato comfort di getto, ALMAR ottiene le più ambite certificazioni in merito al risparmio idrico.

### TEST MECCANICI

Il laboratorio tecnico ALMAR è **certificato per l'esecuzione dei test CSA**: tale abilitazione consente all'azienda di eseguire internamente la maggior parte dei test richiesti dalla normativa, accorciando il lead time necessario al conseguimento di tale certificazione. Il funzionamento e la resistenza nel tempo dei prodotti ALMAR sono inoltre garantiti dalle normative NF e CSA.

*The security and compliance of ALMAR's shower systems are ensured by the most important world certification authorities. Every certification witnesses the exclusiveness and uniqueness of each product and ALMAR's will to ensure its customers the highest quality standards present on the market.*

### WATER POTABILITY

*ALMAR's products are equipped with non-return valves, in order to **avoid harmful backflows and water contaminations** coming from outside.*

*All components are produced with thermoplastics homologated according to the strictest **international standards** for the contact with drinkable water.*

**ACS ~ WRAS ~ KIWA ~ CSA ~ NSF 61 ~ W270 ~ KTW**

[CHECK THE OFFICIAL LISTS]

### CONSUMPTIONS REDUCTION

*ALMAR's purpose is an ecological behaviour aimed at protecting the climate and the environment. Through the production of items operating with a reduced employment of water and an unchanged jet comfort, ALMAR obtains the most sought-after certifications on water saving.*

### MECHANICAL TESTS

*ALMAR'S technical laboratory is **certified for the execution of the CSA tests**: such qualification allows the company to carry out internally most of the tests required by the regulation, reducing the lead time needed to achieve such certifications. The operation and endurance of ALMAR's products are also ensured by the NF and CSA regulations.*

### RIVESTIMENTO PVD

ALMAR è tra le prime aziende in Italia, e tra le poche in Europa, a introdurre all'interno dei suoi processi produttivi una lavorazione che cambierà l'idea di rivestimento: il **PVD** (Physical Vapor Deposition).

Ottenuto dall'evaporazione dei metalli che compongono lo strato di rivestimento esterno, il PVD **migliora le caratteristiche funzionali del prodotto**, rendendolo più duraturo e resistente agli agenti atmosferici.

L'intero processo PVD è **sicuro ed ecosostenibile**: non produce scorie di lavorazione e non utilizza materiali tossici.

Il rivestimento PVD Brushed è disponibile anche nella collezione Acciaio 316

### PVD COATING

ALMAR is one of the first companies in Italy, and one of the few in Europe, that introduced in its production stages a processing that will change the idea of coating: the **PVD** (Physical Vapor Deposition).

Obtained from the evaporation of the metals constituting the external coating layer, the PVD **improves the functional features of the product**, making it more lasting and resistant to atmospheric agents.

The whole PVD process is **safe and ecologically sustainable**: it does not produce processing waste and does not use toxic materials.

The coating PVD Brushed is also available in the 316 Stainless Steel Collection.

# SHOWER SYSTEMS | ABITA IL TUO BAGNO CON ALMAR

SHOWER SYSTEM | LIVE YOUR BATHROOM WITH ALMAR

Una LifeSpa in cui coccolarti.  
Un luogo di raccoglimento per far scivolare via i pensieri.  
Una soluzione d'arredo capace di stupire.

I sistemi doccia ALMAR traducono in soluzioni ogni aspirazione.

La **stanza da bagno** – l'ambiente più intimo e personale della nostra casa - rivela il nostro modo di essere e di vivere gli spazi.

In una casa moderna, la sala da bagno abbandona il suo ruolo di spazio puramente funzionale per trasformarsi in un **ambiente ricercato e accogliente**, in cui concedersi del tempo e prendersi cura del proprio corpo.

Ecco perché la **scelta della doccia**, protagonista indiscussa del nostro bagno, diventa tanto importante.

*A LifeSpa to enjoy.  
A contemplation place to escape your thoughts.  
An amazing furniture solution.*

*ALMAR's shower system converts every aspiration into solution.*

The **bathroom** – the most intimate and personal environment of our homes – reveals our way of being and living spaces.

In a modern house, the bathroom abandons its role of merely functional space and converts into a **refined and pleasant environment**, where you can take your time and take care of our body.

That's why the **choice of the shower**, undisputed protagonist of our bathroom, is so important.

# Velvet Collection

## Product Range

Una nuova collezione caratterizzata da un innovativo getto: **Velvet Rain**.

I **soffioni Velvet** sono disponibili in variante monogetto e multigetto, declinati in versione Emotion (soffioni a braccio) e Temptation (soffioni a incasso).

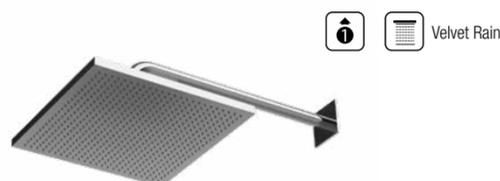

Nella sua variante multigetto, Velvet Rain è affiancato dal nuovo getto **Intense Rain**, o dal getto a cascata **XL Waterfall** nella configurazione Temptation 500.

*A new collection characterized by a new innovative jet: **Velvet Rain**.*

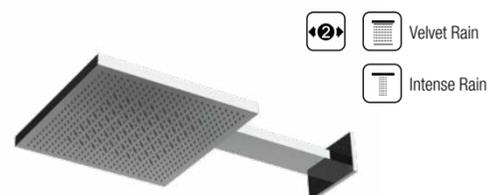

*The **Velvet shower heads** are available both with single and multiple jet, declined in two versions: Emotion (shower heads with arm) and Temptation (built-in shower heads).*

*In the **multi-jet version**, Velvet Rain is matched to the new **Intense Rain** jet, or the **XL Waterfall** jet in the configuration Temptation 500.*

**E044278** | Emotion 300

**E044277** | Emotion 300

# BEAM

Design ed funzionalità

*Design & functionality*

**Il nuovo soffione Beam** unisce estetica pulita e rigorosa a un'estroverta funzionalità, e si lascia scoprire nelle versioni monogetto e multigetto.

Adatto anche a spazi contenuti, **Beam** va oltre il suo ruolo di soffione e diventa un elemento di arredo capace di stupire, indicato per soluzioni a parete e a soffitto.

Nella versione multigetto ruotando la ghiera in finitura è possibile scegliere fra tre diversi tipi di getto, con possibilità di getti combinati.

*The new shower head Beam joins a clean and strict look with an innovative functionality and is available in two versions: single and multiple jet.*

*Suitable also for small spaces, Beam goes beyond its role of shower head and becomes a fitting able to surprise, suitable to be mounted on the wall or in the ceiling. Rotating the ferrule, you can choose among three different types of jet, with the possibility of combining them possibility to choose among other jet combinations.*

- **INCLINAZIONE REGOLABILE**

L'inclinazione del soffione può essere regolata manualmente dall'utilizzatore per assicurare il massimo del comfort nell'utilizzo.

**ADJUSTABLE INCLINATION**

*The shower head inclination can be adjusted manually, to ensure the maximum comfort while using it.*

# BEAM

Tre getti in un solo soffione  
*Three jets in one shower head*

**MASSAGE**  
Un **getto vigoroso** ad azione massaggiante intermittente, che conquista con la sua azione energizzante.  
*A **strong jet** with an intermittent massaging action, conquering with its energizing action.*

**AIRPOWER**  
Una delicata combinazione di aria ed acqua, per una **sensazione piena e avvolgente**.  
*A soft mix of air and water, for a **full and enveloping feeling**.*

**RAINAIR**  
Una **morbida pioggia** che accarezza il corpo e trasforma la doccia in un momento di vero piacere.  
*A **soft rain** caressing the body and converting the shower into a moment of real pleasure.*

# 316 COLLECTION

Perfetto equilibrio tra estetica e qualità

*The perfect balance between aesthetics and quality*

L'acciaio **inossidabile 316** nasce dalla sintesi perfetta di tecnologia, design, cura artigianale e rispetto per l'ambiente. AISI 316 è atossico, riciclabile al 100% e mantiene inalterata la sua impeccabile bellezza poichè resiste agli agenti abrasivi e corrosivi.

**316 Stainless Steel** is the perfect synthesis of technology, design, craftsman's care and respect for the environment. AISI 316 is non-toxic, 100% recyclable and never loses its beauty because it is abrasion and corrosion resistant.

Una **selezione di prodotti** per una collezione completa, disponibile anche con trattamento estetico PVD nei colori selezionati.

**A selection of products** to create a complete collection, also available with aesthetic PVD coating in the selected colours.

# New Water Experience

Relax  
Comfort  
Regeneration  
Wellbeing

Regalati ogni giorno l'**esperienza di un'esclusiva LifeSpa**: le docce ALMAR ti accolgono in un'elegante oasi di pace, in cui rifugiarti dalla frenesia quotidiana e lasciarti andare.

**I sistemi doccia ALMAR sono pensati sulla tua unicità**: la combinazione di differenti getti d'acqua ti offre la possibilità di creare il tuo sistema doccia ideale. Per un'esperienza intima, legata alle emozioni.

Enjoy every day the **experience of an exclusive LifeSpa**: ALMAR's showers welcome you in an elegant haven of peace, where you can escape the daily frenzy and let your hair down.

**ALMAR's shower systems are thought for your uniqueness**: the mix of different water jets offers you the possibility of creating your ideal shower system. For an intimate experience, connected with emotions.

# Velvet Experience

Water Sensations

NEWS 2022

Il nuovo getto Velvet Rain eleva il concetto di doccia, trasformandola in un'**esperienza morbida e avvolgente**, che coniuga eleganza, ecologia e benessere.

Una pioggia delicata e silenziosa, che garantisce un risciacquo completo e uniforme da sapone e shampoo.

*The new Velvet Rain jet elevates the concept of shower, converting it into an **enveloping experience**, joining elegance, ecology and wellbeing.*

*A delicate and silent rain, ensuring a complete and even rinsing from soap and shampoo.*

**VELVET RAIN**

**una pioggia sottile e vellutata**, per un effetto uniforme, avvolgente e rilassante.

**INTENSE RAIN**

**corposi fili d'acqua** per un getto intenso e profondamente rigenerante.

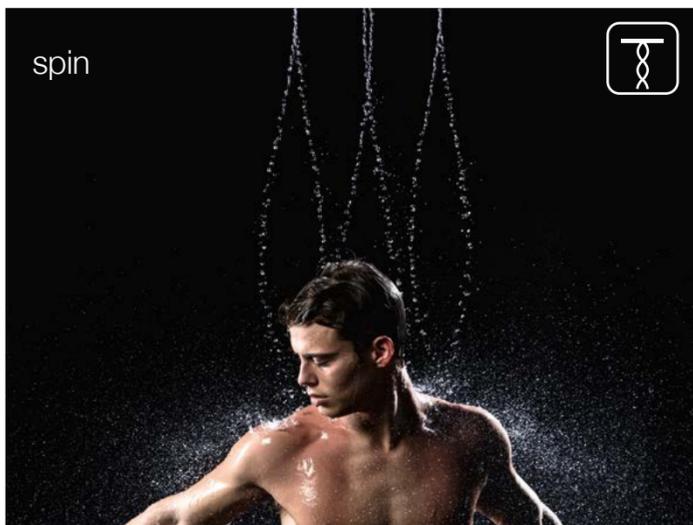

Velvet Rain

WATER EXPERIENCE

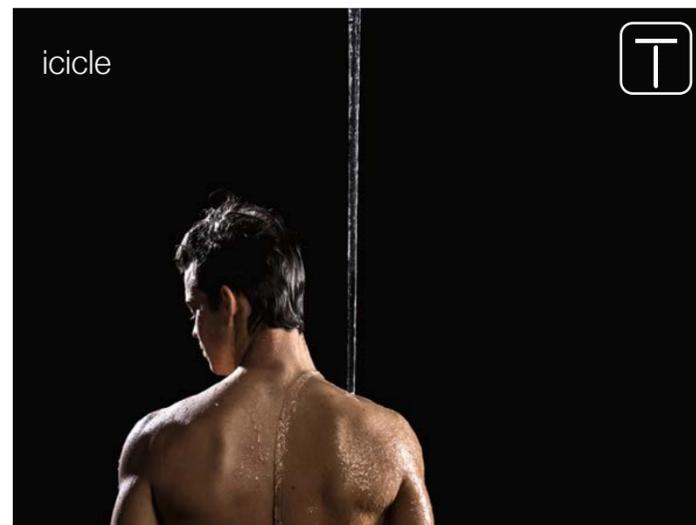

# Water experience | soffioni

## Water experience | head showers

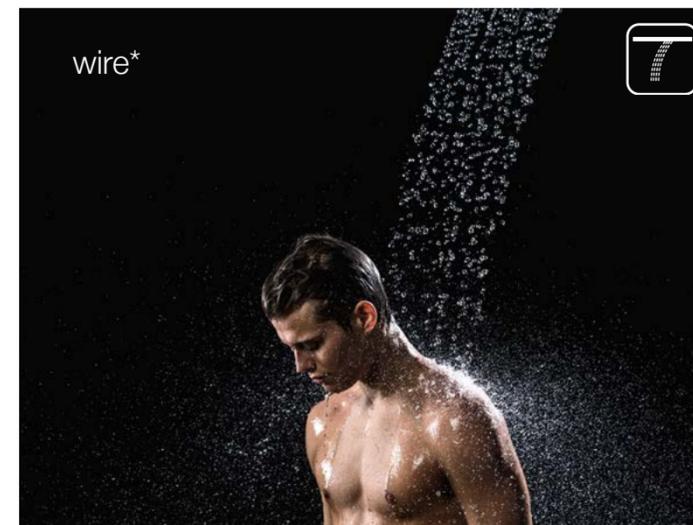

La perfetta armonia di un movimento a spirale ad **intensa azione massaggiante e tonificante**. Il getto ideale per sciogliere tensioni e contratture dopo un allenamento sportivo o una giornata di lavoro.

*The perfect harmony of a double spiral jet with a **deep massaging and tonic action**. The ideal jet to loosen tensions and contractures after a sports training or a long working day.*

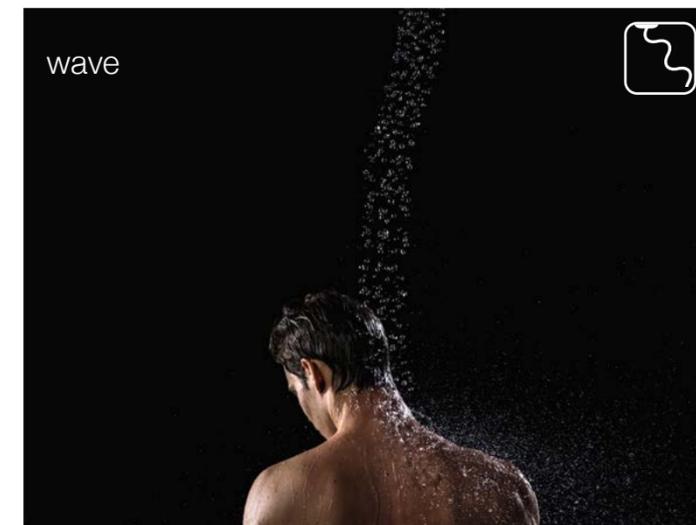

Un elegante cilindro d'acqua che impatta sul corpo in un **getto pieno e coinvolgente**, per poi distribuirsi sulla pelle in modo delicato e uniforme. Per chi in una doccia cerca carattere e unicità.

*An elegant water cylinder hitting the body with a **full and involving jet**, that then distributes softly and evenly on the skin. For those who look for character and uniqueness in a shower.*

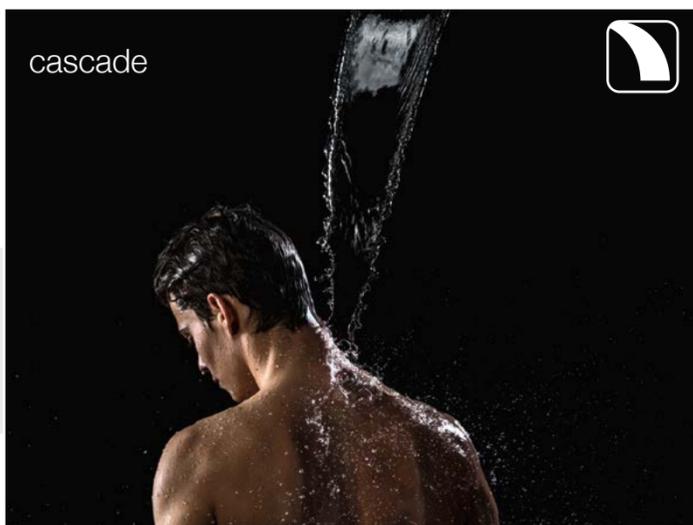

Copiosi cilindri d'acqua creano un'**ampia cascata a pettine** e si distribuiscono con uniformità sul corpo, senza perdere la loro consistenza durante la caduta.

*Rich water cylinders create a **wide diagonal waterfall** and distribute uniformly on the body, without losing their consistency during the fall.*

Una pioggia rigenerante: miliardi di cristalli d'acqua si infrangono sulla pelle, facendo scivolare via la stanchezza. Un **vivace getto basculante**, perfetto per iniziare la giornata con una nuova energia.

*A sensual and regenerating rain: thousand water crystals break on the skin, letting tiredness flow away. A **lively tilting jet**, perfect to start the day with a new energy.*

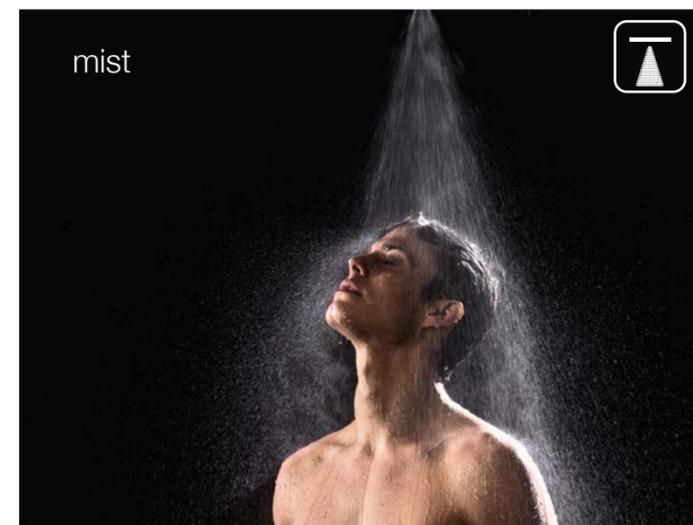

Un'ampia lama d'acqua si riversa sul corpo in un **getto piacevole e corposo**, per un profondo effetto distensivo da spalla a spalla.

*A wide water blade flows onto the body in a **pleasant and dense jet**, for a deep relaxing effect from one shoulder to the other.*

Una voluminosa spirale d'acqua fluttua nell'aria e si riversa sulla pelle, per diffondersi in un **intenso effetto rigenerante** che coinvolge corpo e mente.

*A big water spiral flows in the air and on the skin, then spreads with a **intense regenerating effect** that involves body and mind.*

Una rinfrescante pioggia nebulizzata che avvolge in un **tocco silenzioso, leggero e avvolgente**. Ideale, dopo il getto pioggia, per concludere la doccia quotidiana.

*A refreshing nebulized rain wrapping up in a **silent, light and enveloping touch**. Ideal, after rain jet, to end the daily shower.*

Per una doccia quotidiana speciale nella sua semplicità. Un **getto uniforme, rapido e versatile**, adatto ad ogni momento della giornata.

*A special, simple daily shower. An even, **quick and versatile jet**, suitable for every moment of the day.*

# Water experience | bodyjet

Water experience | bodyjets

La potenza del getto spin unita all'installazione a parete, per un **massaggio localizzato su gambe e schiena**, capace di riattivare la circolazione sanguigna e tonificare i tessuti.

*The power of the spin jet, joined with the installation on the wall, for **localized massage on legs and back**, able to reactivate the blood circulation and tone up the tissues.*

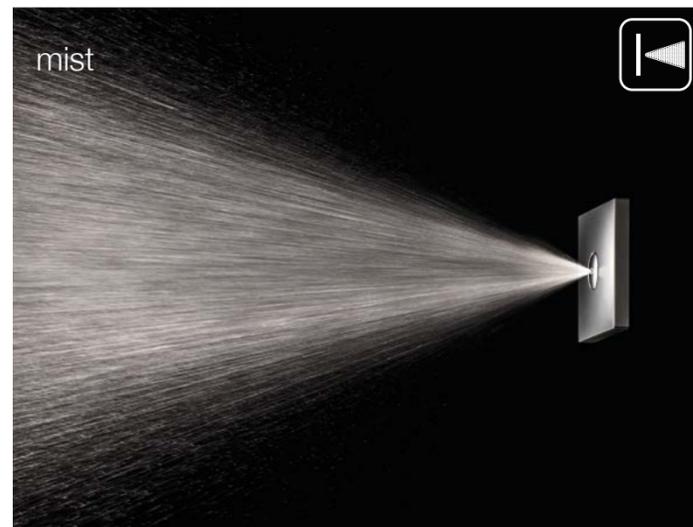

Un'onda basculante che accarezza con vigore, per un **rigenerante massaggio total body**.

*A tilting wave caressing with strength, for a **regenerating total body massage**.*

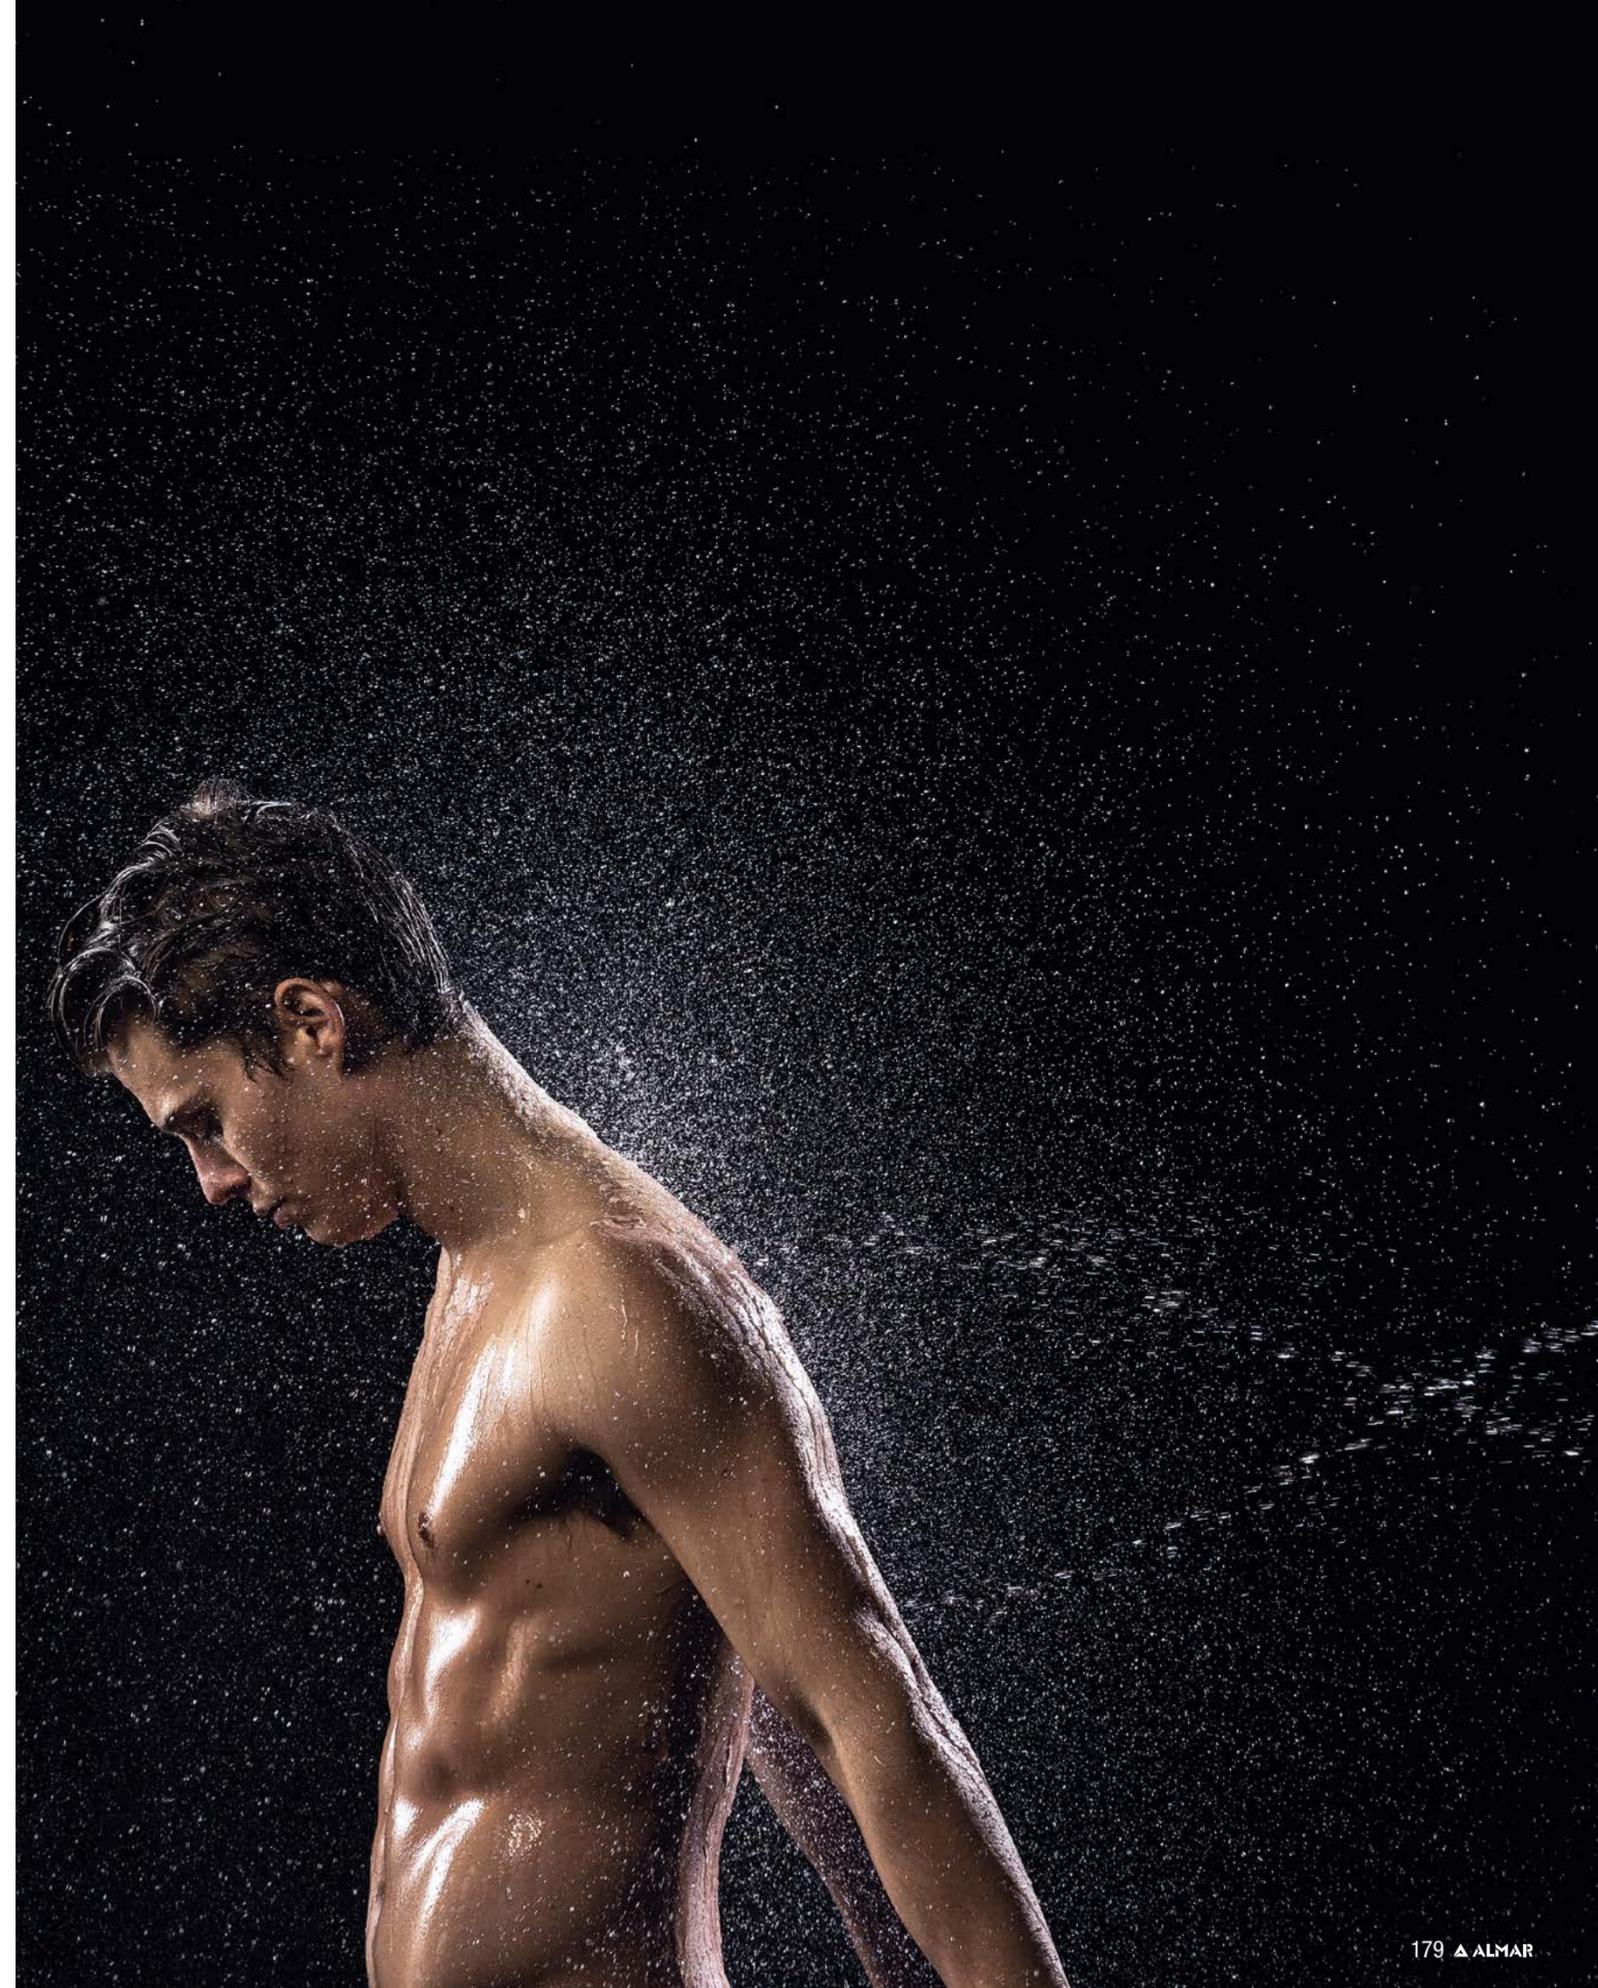

Un ampio getto a pioggia, per un **effetto drenante e profondamente avvolgente**.

*A wide rain jet, for a **relaxing and deeply enveloping effect**.*

Un rinfrescante getto nebulizzato che avvolge in un **tocco silenzioso, leggero e avvolgente**.

*A refreshing nebulized jet wrapping up in a **silent, light and enveloping touch**.*

# POSH

Un amore per l'acqua ancora più prezioso.

*An even more precious love for water*

Realizzata in ottone, Posh aBbandona il suo ruolo di doccetta per trasformarsi in un prezioso oggetto d'arredo. La sua **raffinatezza senza tempo** si accompagna a un'**eclettica versatilità nelle finiture**, rendendola adatta sia a un contesto classico sia a un ambiente più moderno.

*Made of brass, Posh abandons the pure role of shower and converts into a precious furniture object. Its **timeless elegance** matches with an eclectic **versatility of finish**, making it suitable both for a classic and for a modern environment.*

La versatilità dell'erogatore in finitura la rende adatta a ogni ambiente.

Il fascino contemporaneo del manico nero si completa attraverso la nuova serie di flessibili neri con conici in finitura.

*The versatility of the finish makes Posh suitable to every environment.*

*The contemporary charm of the black handle is completed with the new series of black flexible hoses with finishing cones.*

# MODULAR

un nuovo concetto di miscelazione

**Modular** è il nuovo sistema di moduli a incasso brevettato da ALMAR: una serie di **moduli configurabili in diverse soluzioni**, per soddisfare il massimo delle aspettative in termini di funzionalità ed estetica.

Una **nuova concezione di miscelazione**, che fa dell'equilibrio visivo il suo punto di forza: grazie a un moderno studio sullo spazio della cartuccia, il **sistema Modular** permette di ridurre lo spazio di installazione e di ottenere un sistema doccia multifunzione con estetiche della stessa dimensione.

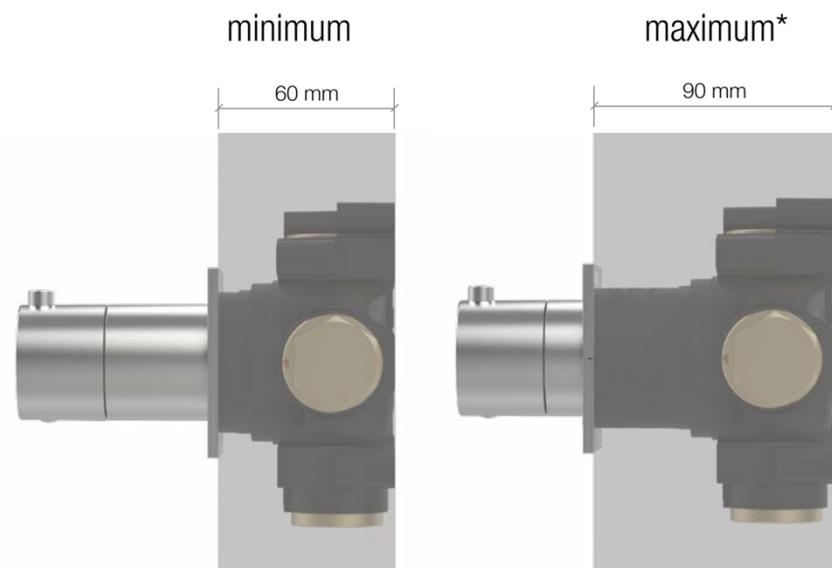

Per sistemi doccia e vasca da 1 a 3 funzioni.

## a new mixing concept

***Modular** is the new system of built-in modules designed by ALMAR: a series of **modules configurable in different solutions**, to meet the maximum expectations in terms of functionality and aesthetics.*

***A new concept of mixing**, that makes of visual balance its strong points: thanks to the modern study of the cartridge, the **Modular system** allows to reduce the installation space and to obtain a multi-function shower system with rosettes with the same size.*

*For shower and bath systems from 1 to 3 functions.*

## 1 PROFONDITA' DI INCASSO

\*Massima profondità di incasso senza l'utilizzo di prolunghe speciali.

### BUILT-IN DEPTH

Maximum built-in depth without any special extension kit.

## MODULAR

## 2 FACILITA' D'INSTALLAZIONE

I pianetti posizionati sulla cover di protezione permettono di evitare errori di posizionamento durante l'installazione.

I singoli moduli sono assemblati in unico corpo, così da facilitare la fase di installazione.

### EASY INSTALLATION

The flat areas placed on the protection cover allow to **avoid positioning errors** during the installation.

Each module is assembled in a single body, to facilitate the installation stage.

## 3 ERMETICITA' VERSO L'ESTERNO

Il guscio protettivo in materiale termoplastico protegge il muro da condense e isola dal rumore, consentendo una maggiore insonorizzazione.

### WATERTIGHTNESS TOWARDS THE OUTSIDE

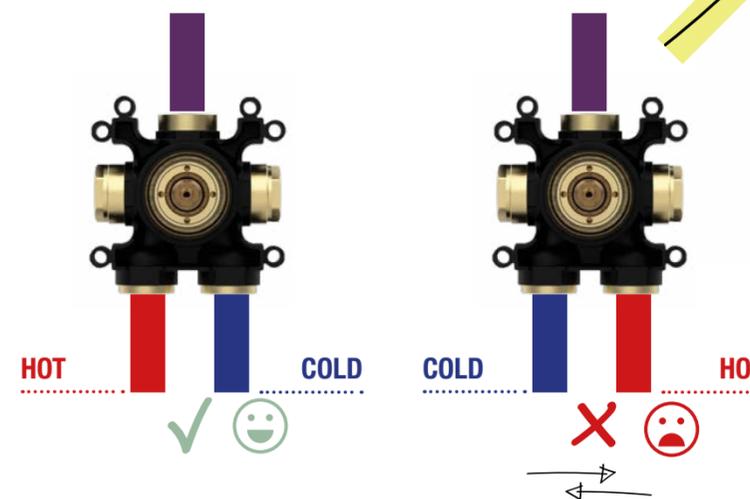

The **protection shell made of thermoplastic material** protects the wall from condensation and insulates against noise, allowing a greater soundproofing.

## 4 SEMPLICITA' NELLE SOLUZIONI

Possibilità di **inversione delle acque** nel caso di errata installazione idraulica.

### EASY SOLUTIONS

Possibility of **inverting water** in case of wrong hydraulic installation.

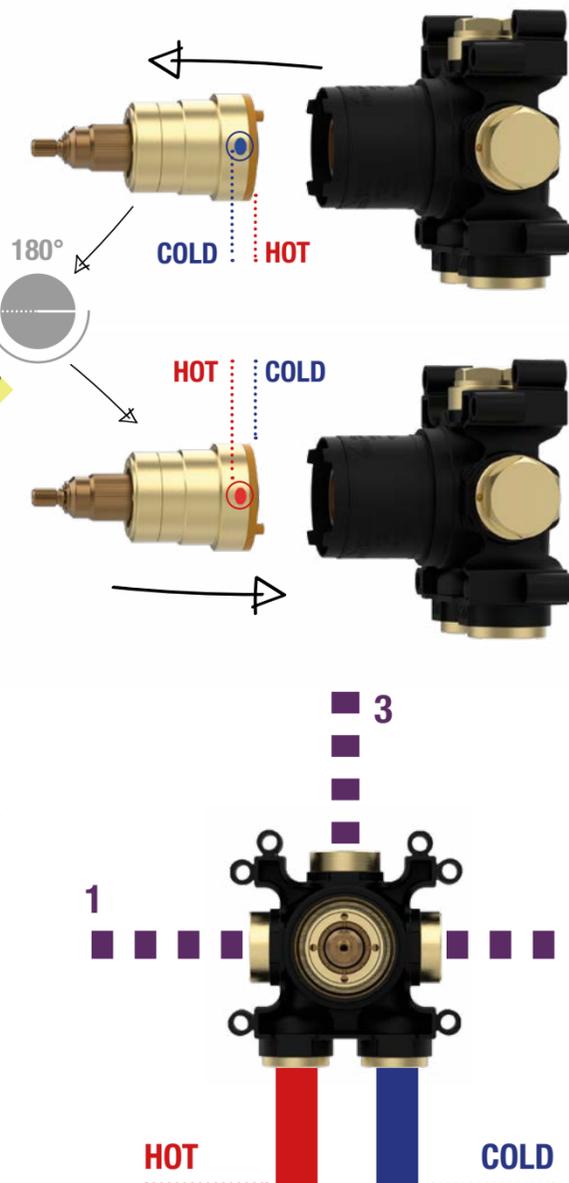

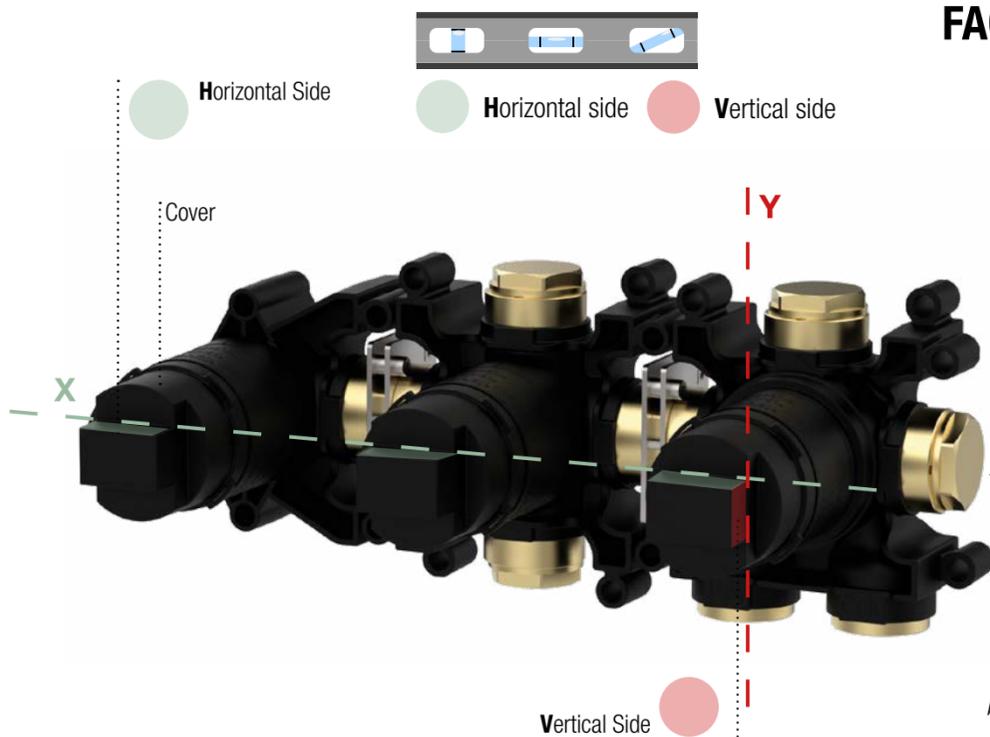

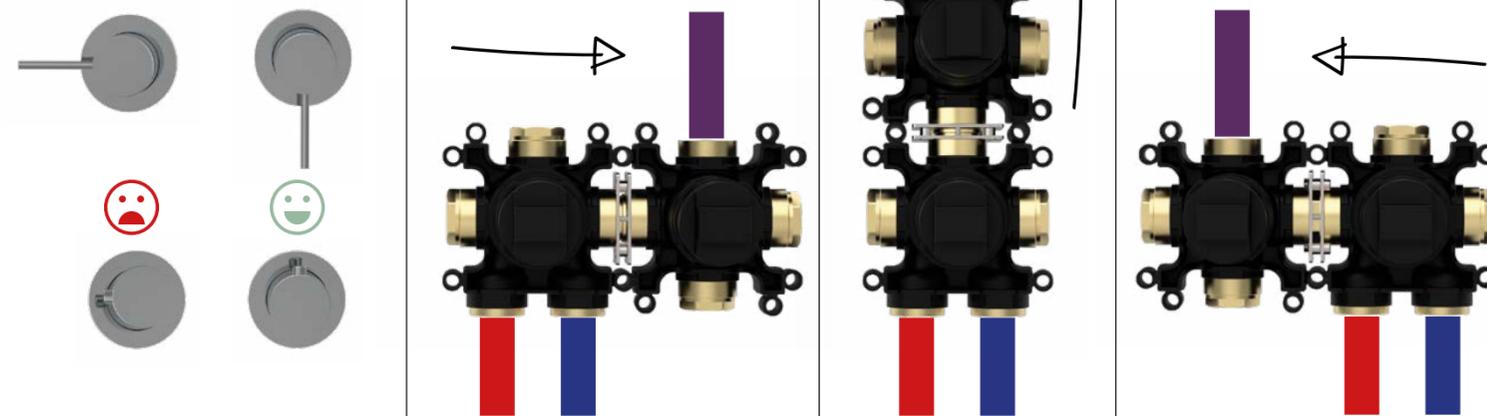

## 5 EASY ORIENTATION

Il "cuore" del sistema, i moduli temperatura, consentono di installare il prodotto in orizzontale e verticale. 1 ingresso acque e 3 uscite daranno la massima libertà di impiego

### EASY ORIENTATION

The heart of the system, the temperature modules, allow to install the product in horizontal or vertical. 1 water inlet end 3 water outlets will give maximum freedom of use.

# LE NOSTRE PROPOSTE

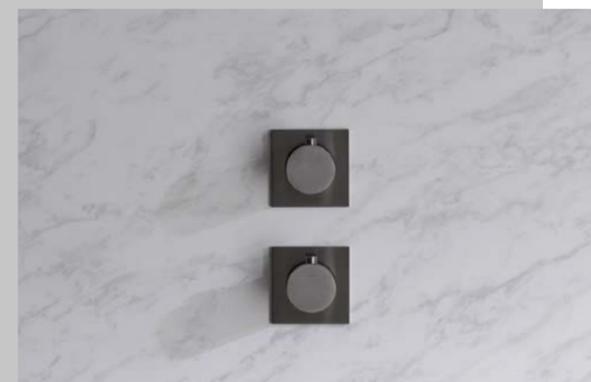

## OUR PROPOSALS

Orientamento orizzontale o verticale, termostatico o meccanico, da una a 3 e più vie, con estetiche tonde o quadrate: **con il sistema Modular** ogni combinazione diventa possibile.

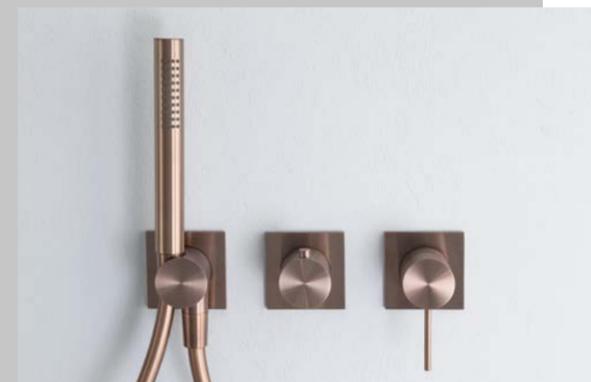

Almar ha studiato e selezionato delle combinazioni per sistemi da 1 a 3 uscite, in versione meccanica e termostatica e adatte ad installazioni doccia e/o bordo vasca.

*Horizontal or vertical orientation, thermostatic or mechanical version, from 1 to 3 or more ways, with round or square aesthetics: with the **Modular system** all combinations are possible.*

*Discover the solution we designed for you: system from 1 to 3 exits, in mechanical and thermostatic version, suitable to be installed in a shower and/or on the edge of the bath.*

## EASY INSTALLATION

Con **CORE** scegli tu la disposizione delle vie.

With **CORE**, you can choose the arrangement of the outlets.

## DA 1 A 3 GETTI

Un unico corpo a incasso che ti permette di personalizzare in qualsiasi momento **estetica e funzionalità** del tuo miscelatore.

Con **CORE** potrai scegliere tra:

- moduli meccanici;
- moduli termostatici;
- moduli termostatici push.

L'unica decisione che dovrai prendere al momento dell'installazione è il numero di funzioni del tuo miscelatore. Per tutto il resto, concediti il lusso di cambiare idea.

Installando **CORE universal box**, potrai sostituire moduli, placche e finiture in qualsiasi momento, senza nuovi interventi di muratura.

### FROM 1 TO 3 FUNCTIONS

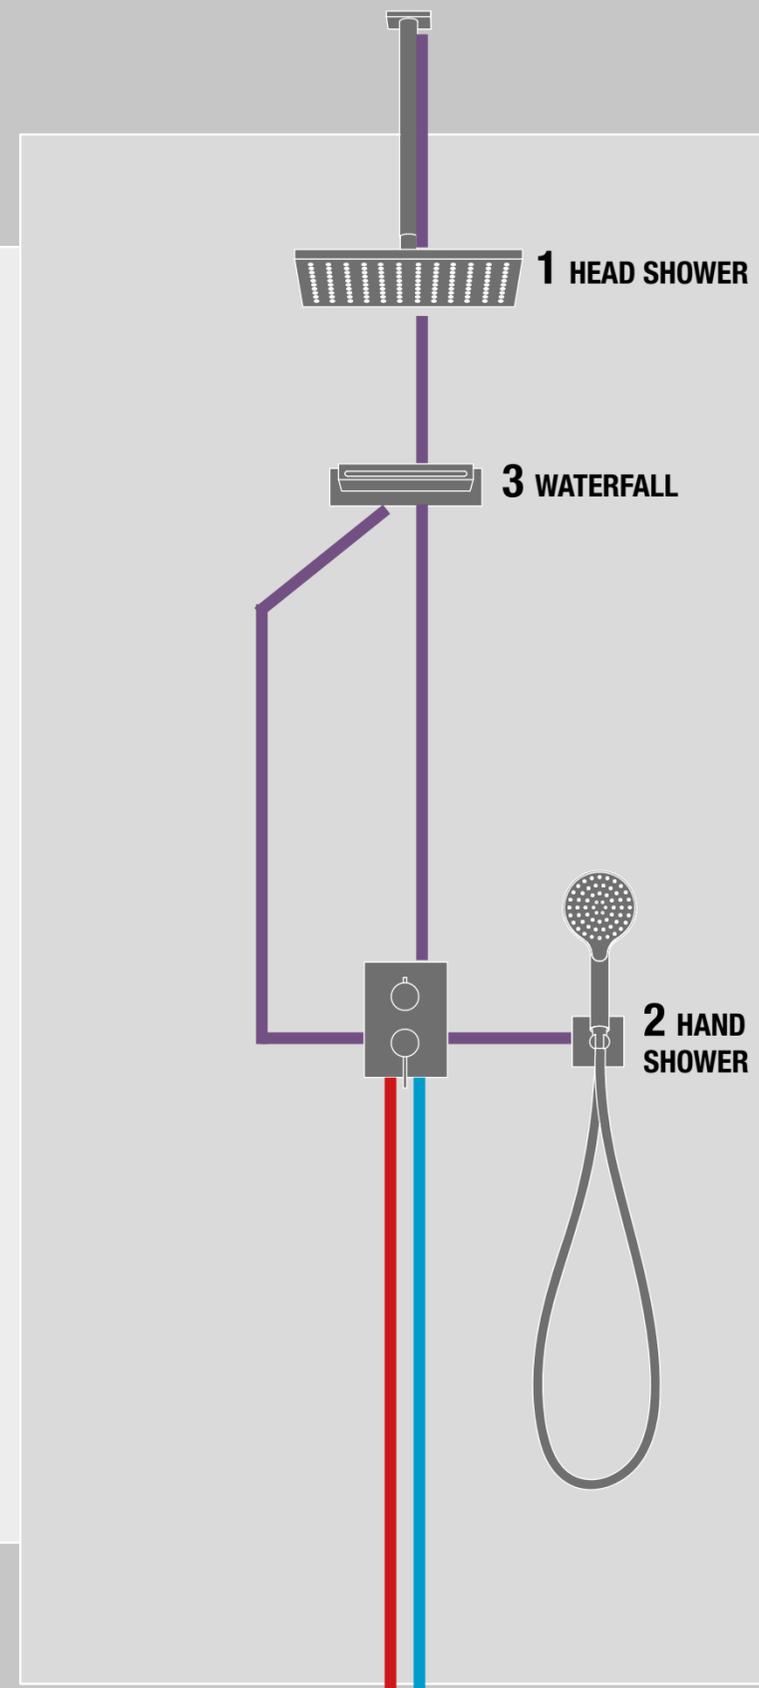

A single embedded body that allows you to personalize at any moment the **look and functionality** of your mixer tap.

With **CORE** you can choose among:

- single lever shower mixer;
- thermostatic modules;
- push thermostatic modules.

The only decision you have to make at the moment of the installation concerns the number of functions of your mixer tap. As to the rest, you can change your mind whenever you want.

Installing **CORE universal box**, you can change modules, plates and finishing at any moment, without masonry interventions.

# CORE PUSH

Quando l'**intuizione** accoglie la **semplicità**.

Con ALMAR basta un semplice tocco per fare la doccia: nel nuovo miscelatore **CORE PUSH** tutti gli elementi seguono la semplicità, e tutte le funzioni riportano a un **unico comando centrale**.

Un'elaborata tecnologia ti permette di selezionare portata e tipologia di getto con un unico comando - disponibile nella versione a due o tre tasti - mentre il contorno zigrinato ti garantisce una perfetta impugnatura.

Progettato in diverse finiture e varianti colore, **CORE PUSH** si integra armoniosamente con qualsiasi stile. Un nuovo concetto di miscelatore, per una doccia ancora più preziosa nella sua semplicità.

When **intuition** meets **simplicity**.

With ALMAR, a single touch is enough to have a shower: in the new **CORE PUSH** mixer tap, all elements are simple, and all functions are connected with **a single central control**.

An elaborate technology allows you to select the flow and type of jet with a single control - available both in version with two and three buttons - while the knurled metal ring ensures an ergonomic handgrip.

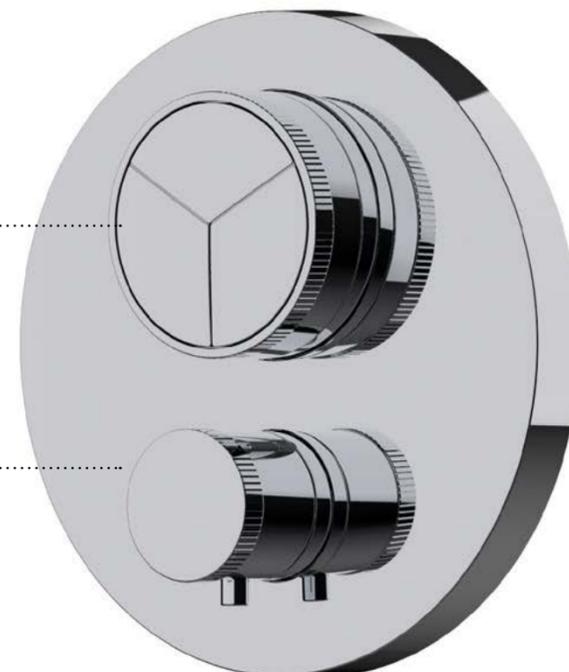

Planned with different finishing and colour variations, **CORE PUSH** fits harmonically with any style. A new concept of mixer tap, for a very precious but simple shower.

\* La finitura estetica del PVD SPAZZOLATO realizzato su Ottone o Acciaio 316 è differente, ciò è dovuto alla diversità del materiale di base su cui la finitura viene realizzata. Per questo motivo nel caso di scelta di PVD SPAZZOLATO su Acciaio 316, Almar consiglia di utilizzare nello stesso sistema doccia tutti prodotti in Acciaio 316.

\* The aesthetical finish of BRUSHED PVD made on Brass or 316 Stainless Steel is different, this is due to the diversity of the material on which the finish is made. For this reason in the case of choice of BRUSHED PVD on 316 Stainless Steel, Almar recommends using all 316 Stainless Steel products in the same shower system.

## KIT DISPLAY HIGH FLOW

**HIGH FLOW UNIVERSAL KIT DISPLAY D003076**

Il modulo display per High Flow è universale:

- acquistare un numero di moduli pari al numero di maniglie desiderate (maniglia termostatica + maniglia/e deviatori)
- completano il kit display le maniglie estetiche (maniglia termostatica + maniglia/e deviatori)
- per indicare l'estetica delle maniglie selezionare il codice prodotto\* presente nella sezione Water Control

display module

\* per le maniglie non esiste un "kit display" specifico in quanto queste corrispondono al prodotto da catalogo per la vendita
