KASTALIA 1

KASTALIA

Un a country of the world only the european art fonda its origins: Italy cradle of the classic architecture.

Since Renaissance italian artistic tradition is irradiated to the most important continental countries, from Maria de Medici's French Kingdom, Palladio's villas in United Kingdom up to the powerful russian Royal Court.

Everywhere painters, architects, sculptors goldsmiths, wood workers and decorators have forged beauty and art of life.

Kastalia comes to life as a trade mark of bath furniture, inspiring itself to the nymph transformed by Apollo in Delphi fount.

Anyone had drunk the water of Kastalia font, would have been transformed in poet.

We too draw from the Fount of the host italian tradition in wood carving, by signing bath furniture, insupcrably in splendor and olcignmco, with the usual passion for precious details and finishing.

В мире есть только одна страна, которую можно считать местом зарождения всего европейского искусства:

Италия- колыбель классической архитектуры. Итальянские художественные традиции эпохи Возрождения распространились по всем наиболее влиятельным государствам континента, от Франции времен Марии Медичи и Англии с дворцами в паладианском стиле до величественного Российского царского двора.

Повсюду, художники, архитекторы, скульпторы, ювелиры, краснодеревщики и декораторы создавали произведения искусства. kastalia, как марка мебели для ванных комнат родилась под влиянием мифа, согласно которому, дочь речного бога, нимфа Касталия, спасаясь от преследований Аполлона, превратилась в водный источник вблизи Дельфы.

Согласно легенде Кастальский ключ является "источником вдохновения" любой, кто напьется из него становится поэтом.

Так и мы черпает вдохновение в источнике лучших Итальянских традиций работы по дереву, подтверждая утонченность и непревзойденное великолепие мебели для ванной, привычным стремлением к изящной отделке и ценным деталям.

Vi è nel Mondo un solo Paese, in cui tutta l'arte europea ha avuto origine: l'Italia, culla dell'architettura classica.

La tradizione artistica italiana dal Rinascimento è irradiata nei piu' importanti Paesi del continente, dalla Francia di Maria De Medici, all'Inghilterra delle ville palladiane, fino alla potente Corte Russa.

Ovunque, pittori, architetti, scultori, orafi, ebanisti e decoratori, hanno forgiato bellezza e arte di vivere.

Kastalia, nasce quale marchio di arredobagno che si ispira alla Ninfa tramutata da Apollo nella Fonte di Delfi.

Chiunque bevesse l'acqua della fonte Kastalia si sarebbe trasformato in Poeta.

Anche noi attingiamo alla fonte della migliore tradizione ebanistica Italiana firmando mobili da bagno di eleganza e fasto insuperabili, con la consueta passione per le finiture e i dettagli preziosi.

Perchè accompagnare un catalogo di mobili con modelli d'abiti d'epoca?

Semplicemente perchè la moda rivela molto di più che uno succedersi di stili nelle stagioni.

Come un abito non si limita a coprire un corpo ma ci parla di colori, dettagli e occasioni speciali, anche un mobile da bagno ci dice molto delle scelte personali, della sensibilità e del gusto di chi lo colloca nel proprio ambiente.

E come un abito viene esaltato dal tessuto, dal pizzo e dal bottone, un bel mobile è valorizzato dalla laccatura, le patine, le cornici che lo fanno vivere in molteplici varianti, come un vestito a misura dei propri desideri.

Why to accompany a furniture catalogue with models of vintage clothes?

Simply, because fashion, reveals much more than a succession of styles in the seasons.

Like a dress does not cover a body only, but it talks us about colours, details and special occasions, bathroom furniture tells us a lot of personal choices, sensitivity and taste of whom places it in your environment.

And as a dress is enhanced by fabric, lace and button, a fine piece of furniture is enhanced by the coating, the patina, the frames that make it living in various ways, such as a dress tailored at our own desires.

Зачем сопровождать каталог предметов мебели старинными костюмами?

Просто потому, что мода как ничто иное отображает смену стилей разных эпох.

Также как и одежда не ограничивается тем что прикрывает тело, а рассказывает нам о цветах, деталях и особых случаях, мебель для ванной комнаты может поведать многое о индивидуальности, чувствительности и вкусе того, кто захочет иметь ее в интерьере собственного дома.

И также как и красота платья подчеркивается дорогой тканью, кружевом и застежками, достоинства мебели акцентируются окраской и отделкой, которые дают возможность для множества вариантов, как одежда на любой случай и вкус.

И также как и красота платья подчеркивается дорогой тканью, кружевом и застежками, достоинства мебели акцентируются окраской и отделкой, которые дают возможность для множества вариантов, как одежда на любой случай и вкус.

Una collezione rigorosa, dalle linee dritte e le slanciate gambe a piramide che ricordano lo stile Direttorio. L'eleganza si sposa con la capienza dei vani ad anta e a cestone e ogni elemento è componibile per creare le composizioni desiderate. Finiti in foglia argento o oro e con i piani lavabo in vetro fuso.

A rigorous collection, by straight lines and slender legs in a pyramid, reminiscent of the "Direttorio" style. The elegance is combined with the capacity of doors and chest cabinet and each element can be combined to create the desired compositions. The most plain, is emphasized by grooves engraved and adorned with gold and silver fini-shing. It becomes more prestigious with floral friezes and neoclassical swags. Finished in gold or silver decoration and tops in melted glass.

Внешняя элегантность сочетается с практичной вместимостью ниш и выдвижных корзин, и каждый элемент может являться секционной частью разных композиций. Простота и строгость композиций подчеркивается пазами, декорированными золотой и серебряной фольгой. Дополнительную изысканность коллекции придают цветочные фризы и неоклассические фестоны, покрытые золотой и серебряной фольгой, а также столешницы из литого стекла.

Una collezione rigorosa sottolineata dalla diamantatura delle ante, un eco Art Déco. Impreziosita dalle fasce in foglia oro o argento che ne sottolineano la linearità, un contrappunto alle versioni nere o bianche per un insieme sofisticato. Tutte le versioni sono arricchite dai tocchi luminosi degli Swarovski nelle maniglie.

A rigorous collection highlighted by diamond-cutting doors, an echo of Art Deco. Enhanced by bands of gold or silver leaf, emphasizing the linearity; a counterpoint to the black or white versions for a sophisticated set. All versions enhanced by bright touches of Swarovski in the handles.

Коллекция в строгих линиях, подчеркнутых «алмазной огранкой» дверок, - отголосок Art Déco. Контуры, обрамленные золотой или серебряной фольгой, придают ей еще больше достоинства, подчеркивая линейность форм и являясь в тоже время контрастом с белым или черным основным фоном, создавая изысканный ансамбль. Ручки всех моделей украшены блестящими кристаллами Swarovski.

New Baroc collectings

Rondo

Propone nei tratti principali le linee delle commode del Settecento, con forme rotonde, mai eccessive.

Bombè

I volumi bombati del neobarocco trovano in questa collezione la loro versione fantasiosa.

Diva

La collezione Diva non teme d'avere una personalità unica: sintetizza elementi barocchi della curva e l'avvitamento delle gambe a torciglione.

Propone nei tratti principali le linee delle commode del Settecento, con forme rotonde, mai eccessive. Si presta a diverse interpretazioni: di gusto contemporaneo dalle linee pulite esaltate dalle finiture oro e argento, oppure di gusto più classico con patine e intagli fatti a mano e finiti a foglia oro, ricche maniglie in stile dell'epoca. Anche Rondò sa essere versatile per inserirsi in ogni arredo con buon gusto.

The collection proposes, in the main lines, the style of eighteenth-century "commode", with round forms, never excessive. It lends itself to different interpretations: from the contemporary style with clean lines enhanced by gold and silver finishes or more classical, with patinas and hand made carvings finished in gold decoration. Precious handles lined up with that kind of time. Rondò also knows to be versatile to suit any decor with tasteful furnishings.

Предлагает линию в стиле комодов 18 века с несколько округлыми формами, которая может иметь самые разные варианты исполнения: от современных с чистыми линиями, экзальтированными золотой и серебряной отделкой, до более классических с патиной и ручной резьбой, декорированной фольгой, с дорогими ручками в классическом стиле. Rondò может быть удачно включен в любой интерьер ванной комнаты, оформленной со вкусом.

I volumi bombati del neobarocco trovano in questa collezione la loro versione fantasiosa. Interpretata da colori lucidi e decisi. Anche gli accessori sono pensati per rompere lo schema classico, specchi e maniglie in vetro a forma di fiore, un richiamo alla pop art. Per chi ama un tocco lussuoso la struttura rivestita in foglia argento si completa con i cassetti rivestiti in eco-pelle capitonné.

Volumes are rounded in this collection of new-baroque and find their imaginative interpretation by shining and bold colours. The accessories as well, are designed to break the classical scheme, mirrors and glass handles in the shape of a flower, a reference to the pop art. For those who like a touch of luxury to the structure covered in silver finishing matches with drawers, upholstered with ecological leather.

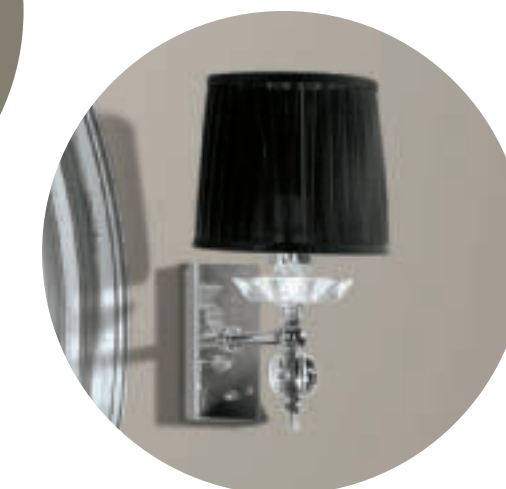

Округлые формы стиля Необарокко находят в этой коллекции причудливую интерпретацию. Яркое и блестящее цветовое исполнение. Даже аксессуары подобраны таким образом, чтобы разрушить классическую схему. Зеркала, бра и стеклянные ручки в форме цветов в стиле поп-арт. Для тех кто предпочитает шик, можем предложить комплект покрытый серебряной фольгой с ящиками отделанными экокожей саритонне.

La collezione Diva non teme d'avere una personalità unica: sintetizza elementi barocchi della curva e l'avvitamento delle gambe a torciglione con citazioni anni Cinquanta.

Si veste di una pelle moderna con le superfici laccate lucide, preziosa con le foglie oro e argento, classica con le superfici craquelé e patinate, rifinite a foglia, sempre inconfondibile e curata nella proposta accessori: lampade, specchiere, maniglie. Come una vera diva, lei o nessuna.

Diva model doesn't fear to have an exclusive personality.

It synthesizes baroque elements of the curvy and leg tailspin, though 50s citations.

In the same time it becomes modern with shining lacquered surfaces, precious with gold and silver decorations, classic with patinated and craquelé finishing. Always unmistakable and refined for the accessories proposal as lights, mirrors, handles. Like a true star. Either she or any.

Коллекция Дива не опасается быть необычной:

элементы барокко в изгибах и закручивающихся плетениях ножек связаны в ней с элементами, характерными для тенденций Пятидесятых годов. В современной интерпретации с блестящими лакированными поверхностями, богатая - с золотой и серебряной фольгой, классическая с кракелюром и патиной, всегда уникальна и продумана в подборе аксессуаров: светильников, зеркал, ручек.

Madras

*Propone nei tratti principali le linee delle commode del Settecento,
con forme rotonde, mai eccessive.*

Elegance

*I volumi bombati del neobarocco trovano in questa collezione
la loro versione fantasiosa.*

Forme sobrie, leggermente stondata sul fronte, gamba “en cabriole”, una linea classica che sa rivestirsi di echi lontani. Madras si caratterizza per i cassettoni e gli specchi rivestiti in paglia intrecciata o in eco-pelle con cuciture a losanga. Quando il tocco etno si innesta su un puro stile coloniale, materiali e colori ricercati, dettagli esclusivi delle maniglie ottone antico e ferro antico, quasi piccole sculture. Profondamente europei, ma con il cuore altrove.

Plain shapes, gently rounded in front, legs Queen Anne style. A classic line styled by far echoes. Madras is typical of the drawers and mirrors upholstered with crossed straw or ecological leather with lozenge seamy. When ethnic touch mergers with a pure colonial style, sought materials and colours, exclusive details of the handles in old iron and brass, like small sculptures. Deeply European but with the heart away

Строгие формы, слегка округленный фронтал, ножки в стиле Регентства классическая линия с далекими отголосками других стилей. Мадрас характеризует отделка тумбы и зеркала плетеной соломкой или экокожей с прострочкой ромбом. Когда этнический стиль едва соприкасается с колониальным, придавая ему изысканные материалы и краски, исключительные детали в виде ручек из состаренной латуни и железа, как будто бы мале-нькие скульптуры. Настоящий европеец, оставивший сердце в другом месте.

Armonia classica nelle proporzioni, Elegance è una collezione che sa stupire per la sua versatilità: decisa proposta in nero laccato lucido, molto british nell'azzurro opaco delle porcellane Wedgwood e cornici bianche, sontuosa nella veste bordeaux con fregi oro. Elegance si veste dell'abito adatto in ogni stile d'ambiente, senza mai perdere il buon gusto e la misura dell'eleganza.

Classic harmony in shape. Elegance, a collection that knows how to amaze with its versatility: determined when proposed with shining black lacquering, very British in light matt blue and white frame, typical of the Wedgwood porcelains. Luxurious in burgundy colour and gold friezes. Elegance can dress for every ambience style, without losing good taste and dimension of the elegance.

Классическая гармония пропорций. Элеганс коллекция, изумляющая своей многогранностью: яркая в черном блестящем лаке, очень «английская» в голубом матовом лаке с фарфором Wedgwood и белыми рамочками, роскошная в бордовом лаке с золотом. Элеганс облачается в костюм под стать любому стилю обстановки, не теряя при этом своей эстетичности у элегантности.
