

GREEN WON THE PRESTIGIOUS "RED DOT: PRODUCT DESIGN" AWARD 2015

We are very proud to announce that Green washbasin is winner of this year's "red dot award: product design".

Red Dot Design Award is an international design prize awarded by the Design Zentrum Nordrhein Westfalen in Essen, Germany. This year, designers and producers from 56 countries applied for the prizes with a total of 4,928 entries. An international highly qualified 38-members jury selected the winners based on evaluation criteria like the degree of innovation, aesthetic quality, functionality, usefulness and also considering economical and technological features.

Our brand new Green washbasin is Catalano's most recent excellent result of the synergy of our advanced technologies and our experience in creating innovative and functional solutions; its aesthetic shape inspired by nature, with rounded corners and continuous curves and surfaces that allow the natural flowing of water, is balanced and attractive. All its features fully satisfy the characteristics the jury was looking for.

GREEN collection will soon enlarge its range, by including new items and solutions, always pursuing the highest standard in the world in ceramic sanitary-ware field.

Kind regards,

Ceramica Catalano
Diego Rossi – Export Manager
